Artem is a begginer UX-WEB designer and Programmer living in Russia Опять коморку снесли ;)

ABOUT MYSELF

I'm constantly coming up with

Designs and a lot of ideas come up

in my head. Exe many programming

languages: C++,JS,C#,PHP. I know

them only at the initial level except

for JS. I am also fond of

photography, and writing music

MY TIMELINE...

ABOUT MYSELF

At the moment I am studying in the

3rd year at a technical school for a

programmer. He worked at a factory

assembling laptops, servers,

stationary PCs.

2022 At this moment Studing in Techic

School on Programmer

I WORK

At the moment I am studying in the

3rd year at a technical school for a

programmer. Worked at a factory

assembling laptops, servers,

stationary PCs.

February 2021 I'm taking my first project-a website. I build it from scratch using HTML, CSS, PHP and win a local scientific conference at a technical school. Along the way, I study different programming languages. 2020 I am entering and Studing in Techic School on Programmer September 2017 I was finally convinced that I would go to a programmer or a technical engineer July 2016 I start to disassemble and assemble different equipment trying to understand how it works. Also, I eliminated various errors in the PC of friends, relatives, etc. **JUNE 2016** My grandmother gives me a laptop to study. In the future, he will stay with me. 2012 My Loving Grandma buying yourself notebook I'm starting to understand PC software for the first time and fix various errors Junuary 2009 My parent buyng me Mini desktop for playning games I'm starting to learn Android systems 2008 Playning in Need For Speed Underground 2 HELLO WORLD!!! 2004 My Works

PHOTOGRAPHY

Bulding on HTML5,CSS3,JQuery
